First, I want to thank you for your business. It is a pleasure to get started on your project. I began Enthusiast Media Group in 2005 for one reason, "To provide client solutions in every element of their printing process." Our entire team supports this statement. EMG has truly earned the "One Stop Print Solution" position. We offer education, process improvements, and look for instant economies. With over 20 years in the industry, I have extensive experience as estimator, plant scheduler, customer service rep, national sales rep and finally as the owner of a printing service company, EMG. We create solutions by putting your job in the right plant every time.

I bring over 10 years as a List Processor in a medium sized mail house in the Pacific Northwest. I have worked with many different types of databases. Database special projects are my focus and finding effective solutions is a challenge I welcome. I particularly enjoy the customer service aspect of my Mailing Specialist position at EMG. I look forward to working with you.

I have spent my career in Customer Service and I enjoy the hands on environment my position of Account Manager at EMG offers. I recently relocated from Southern Oregon and my goal is to provide excellent customer service experience in a wide variety of printing environments. Working with small printers has provided me the experience in wearing many hats ranging from facilitating direct mail campaigns to catalog planning. I have experience as a web press quality control inspector. I look forward to working with you on your next project.
